

## Save the date – European Research and Innovation Days 2020 - 22-24 Sept.

Hello,

We are happy to announce that a fully online version of the [European Research and Innovation Days](#) will take place on **22, 23 and 24 September 2020**.

All of the sessions and actions showcasing Europe's best and brightest research, science and innovation will be reimagined as an online happening featuring a high-level **Policy Conference** and the interactive **Science is Wonderful!** public exhibition.

Brought to you by the European Commission, the **European Research and Innovation Days** brings together policymakers, researchers, entrepreneurs and citizens to debate and shape the future of research and innovation in Europe and beyond.

Last year's edition attracted more than 4,400 conference participants and 3,200 exhibition visitors. While the format and shape of the event have changed due to COVID-19, the impact of the event will be even more powerful.

For now, all you need to do is **save the date, check the [draft programme](#)** and follow all the developments around the event on Twitter [@EUScienceInnov](#). Feel free to share your thoughts about how you want to shape future research and innovation policy by using the hashtag #RiDaysEU.

Kind regards,

The European Research and Innovation Days Organisation Team
